DETAILED ACTION

1. The reference for which prosecution was suspended for in the instant Application has become available. The instant Application is therefore removed from suspension and the finality of the last Office Action is withdrawn in order to apply a new rejection based on the new reference.
2. The finding of allowability of claims 1, 4, 5, and 24 that was made in the Office Action filed 1/20/00 is withdrawn in light of the new rejection.
3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

4. Claims 1, 4, 5 and 24 are rejected under 35 U.S.C. § 102(e) as being anticipated by Sanicola-Nadel et al. (US 6,677,135 B1, "Sanicola-Nadel"). Sanicola-Nadel discloses SEQ ID NO:21 which is 100% identical to instant SEQ ID NO:2 and instant SEQ ID NO:4 (yes, instant SEQ ID NOs:2 and 4 are indeed identical, see instant specification, page 5, line 18). Instant SEQ ID NO:6 is contained within Sanicola-Nadel's SEQ ID NO:21, and also within Sanicola-Nadel's SEQ ID NO:19 (residues 144-315) (Figure 10b, column 22, line 28 and line 49, columns 77-80, and columns 83-86).
5. Claim 23 is in condition for allowance.
